

To whom it may concern,

Non-GMO (Genetically Modified Organism) Declaration

All vegetable varieties presently marketed by Bayer New Zealand Ltd in New Zealand have been created using conventional breeding methods without the use of genetic modification techniques leading to GMO's, as defined by the Hazardous Substances and New Organisms Act 1996.

This declaration applies to all shipments of vegetable varieties marketed, and seeds produced, by Bayer New Zealand Ltd in the course of the year 2025 unless Bayer advises otherwise. After expiration of this period we are happy to provide you with an updated statement.

A handwritten signature in black ink, appearing to read "Darren Wood", written in a cursive style.

Yours sincerely,

Darren Wood
