Non-GMO (Genetically Modified Organism) Declaration

All vegetable varieties presently marketed by Bayer CropScience Pty Ltd in Australia have been created using conventional breeding methods without the use of genetic modification techniques leading to GMO's, as defined by the Australian Gene Technology Act 2000.

Bayer CropScience Pty Ltd
ABN 87 000 226 022

Level 1, 8 Redfern Road
Hawthorn East VIC 3123
Australia

This declaration applies to all shipments of vegetable varieties marketed, and seeds produced, by Bayer CropScience Pty Ltd in the course of the year 2024 unless Bayer advises otherwise. After expiration of this period we are happy to provide you with an updated statement.
