Grow better together

# CEYLON F1

CEYLON is a medium maturing thick flat to round shape red onion with high resistance to pink root disease (Pt) and intermediate resistance to Basal rot resistance (Foc)

## Features

- Early maturity of 75 days.
- Perfect globe shape.
- High yielding variety.
- Extended shelf life-has a thin neck.
- Excellent uniformity in bulb size and shape.

## Advantages

- Strong healthy bulbs and root system.
- Has high bolting tolerance in short day markets.
- Quick to mature for market.
- Has pink root and basal rot resistances.

## Benefits

- High yield and less use of chemicals due to resistance to Pink root and basal rot ensures ROI by the grower.
- No bolting leads to 100% bulb formation of each plant.
- Excellent grade out due to uniformity of bulbs.
- Long shelf life due to thin neck leading to excellent curing after maturity.
- Great onion for making onion rings because of its single center growth habit.
