**Innovation From
Seed To Service**

Discover the Finest Vegetable Seed Varieties for Your Foodservice Needs

Our tomato varieties are carefully selected for their exceptional flavor, texture, and versatility. Whether you are looking for consistent slicers for sandwiches and salads, flavorful cherry tomatoes for appetizers, or robust Roma tomatoes, we have the perfect varieties to suit your foodservice needs.

Introducing our newest innovation in the world of vegetables, the High Rise broccoli varieties. Our High Rise broccoli portfolio boasts a sweet flavor that will tantalize your taste buds, offer a new snacking opportunity from Seminis® Brand.

Our innovative technology allows us to utilize the entire crown and stem of the broccoli, reducing food loss one bite at a time. High Rise broccoli is not only bursting with flavor but is also a testament to Bayer's commitment to reducing waste and promoting a future where neither flavor nor nutrition are compromised!

Our robust onion varieties provide a high uniformity of shape, good bulb quality and a low pungency experience making them a great year-round choice. Bayer's portfolio includes green bunching, yellow, white and red onions, all are a versatile choice for salads, sandwiches and fresh menu innovations. Our high-flavor onion varieties add depth and flavor to a variety of dishes.
